

74RS

*"We would like to thank our clients and their families
for allowing us to be part of their personal stories and
for sharing their experiences with us.
We are endlessly inspired by your vision and
friendship."*

MARC GIORGETTI
OWNER OF SOLARIS YACHTS

BUILT FOR SAILORS SINCE 1974

The history of
**SOLARIS IS
REINVENTED WITH
THE BIRTH OF THE
SOLARIS 74RS**

The history of Solaris is reinvented with the birth of the Solaris 74. Over the years, the design and development of our 22-meter yachts have left their mark on the yard: Solaris has created several models, always being more innovative and performing. Each Solaris yacht has satisfied the owners' needs and ambitions, offering reliable and easy offshore sailing. Thanks to the great job done by our technical team and by the designer Javier Soto Acebal and by Lorenzo Argento for the interiors, Solaris has designed and put into practice the owners' requests, to build the Solaris 74, one of a kind. The boat's essence and improvement develop in two stages. First, the incredibly modern waterlines and the forward buoyancy, ensured by a small chine; second, the extremely rounded aft section, ideal to host the two rudder blades.

The deck layout is characterised by a broad cockpit that features twin wheels set outboard, while the companionway, offset to starboard, is easily accessible without the intrusion of the cockpit table, which is placed to port. Also, the cockpit backrests allow the guests to sit in a forward-facing position, and they can even enjoy a wide sunbathing area.

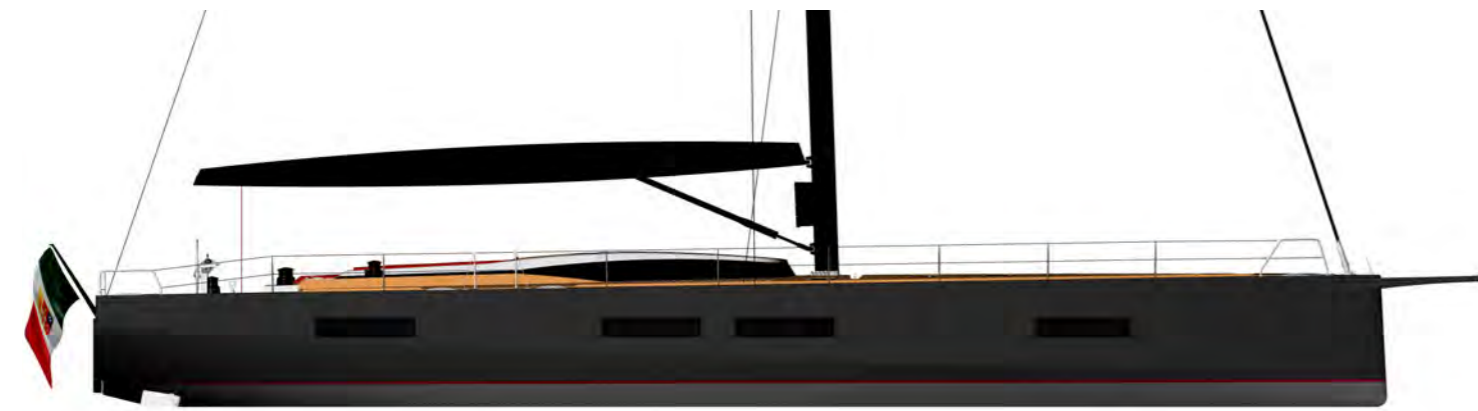

Down below, there are 3 layout options, all characterised by high comfortable volume for 3 or 4 double cabins plus the crew cabin with separate bathroom. Moreover, the bright and spacious raised saloon, spreads an amazing light and allows the engine room to be positioned amidships. The hull number 1, currently under construction, is planned to be delivered by the end of 2023. There is much in this boat to make her a special project and there are many other possible options for all the owners who dream of their own unique yacht.
